## Dursun Delen

Dr. Dursun Delen is an Associate Professor of Management Science and Information Systems in the Spears School of Business at Oklahoma State University (OSU). He received his Ph.D. in Industrial Engineering and Management from OSU in 1997. Prior to his appointment as an Assistant Professor at OSU in 2001, he worked for a private consultancy company, Knowledge Based Systems Inc., in College Station, Texas, as a research scientist for five years, during which he led a number of decision support and other information systems related research projects funded by federal agencies such as DoD, NASA, NIST and DOE.

His research has appeared in major journals including Decision Support Systems, Communications of the ACM, Computers and Operations Research, Computers in Industry, Journal of Production Operations Management, Artificial Intelligence in Medicine, Expert Systems with Applications, among others. He recently co-authored three books on Data Mining, Business Intelligence and Decision Support Systems. He served as the general co-chair for the 4<sup>th</sup> International Conference on Network Computing and Advanced Information Management (September 2-4, 2008 in Soul, South Korea). He is an associate editor for the International Journal of RF Technologies: Research and Applications, and serves on the editorial boards of the Journal of Information and Knowledge Management, International Journal of Intelligent Information Technologies, and International Journal of Service Sciences.

His research and teaching interests are in decision support systems, data and text mining, knowledge management, business intelligence and enterprise modeling.
